PROFESSIONAL SUMMARY

Data analytics enthusiast pursuing MCA with a B.Sc. in Computer Science. Proficient in Python, SQL, Excel, Power BI, and Tableau. Experienced in data cleaning, transformation, visualization, and building dashboards to derive actionable insights. Seeking an entry-level Data Analyst role to apply analytical skills and deliver business value.

TECHNICAL SKILLS

- Data Analysis: Data cleaning, transformation, MIS reporting, dashboard creation
 - Excel: Pivot Tables, VLOOKUP/HLOOKUP, Conditional Formatting, basic automation
 - BI Tools: Power BI, Tableau (dashboard design & visualization)
 - Databases: SQL (joins, subqueries, DDL/DML /DQL /TCL)
 - Programming: Python (Pandas, NumPy, Matplotlib, Seaborn)
-

EDUCATION

- Master of Computer Applications (MCA) | Savitribai Phule Pune University | Pursuing
 - B.Sc. Computer Science | Savitribai Phule Pune University | 2022 – 2025
-

PROJECTS

Spotify Data Analysis

- Analyzed Spotify dataset using Python and Power BI to identify streaming trends, year-wise release patterns, and genre/artist growth.
- Built interactive Power BI dashboards to visualize user/listening behavior and track key metrics.

Lung Cancer Data Analysis

- Cleaned and processed healthcare dataset using Python (Pandas).
 - Created visualizations (Matplotlib, Seaborn) to highlight symptom and demographic patterns for exploratory insights.
-

CERTIFICATE

- Data Analytics
